1. *Mr. Robarts*—Resolution—That henceforth every member of this House may, as a matter of right, address the House in either of the two official languages of Canada.

PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That, in the opinion of this House, until such time as a minimum income is guaranteed to every citizen of Ontario, this government should forthwith introduce a comprehensive scheme of disability payments to guarantee an income to those citizens incapacitated by ill health and who qualify for neither unemployment insurance nor disability payments under The Workmen's Compensation Act.
3. *Mr. Trotter*—Resolution—That, in the opinion of this House, (a) the Department of Education should make grants available for the purposes of furthering immigrant students' command of the English language to any Board of Education which undertakes to set up facilities for this purpose; and (b) that the Department make available its technical staffs to advise on the setting up and purchase of language laboratories and teaching aids for this purpose.
7. *Mr. Sopha*—Resolution—That, in the opinion of this House, the Government of Ontario has neglected the proper development of the northern part of the Province of Ontario and the policy or lack of same pursued by the Government of Ontario has failed to promote the economic well-being and the prosperity of all of the people of Ontario and, particularly, the inhabitants of the northern part of the province, in that the government has failed in the following particulars: (a) to require that ores mined in Ontario be smelted and refined in Ontario; (b) to promote the utilization of the ores mined in Ontario in the manufacture of finished products in Ontario; (c) to take steps to attract and establish secondary industry in the northern part of the province; (d) to adopt and promote measures to increase the number of people who live in the northern part of the province; (e) to promote the ownership of a significant portion of the equity in natural resources industries by Canadians; (f) to create ways and means of training adequate numbers of people in the engineering and technical arts to engage in the development of our natural resources industries; (g) to recognize that the real wealth of Ontario is to be found in the natural resources of Northern Ontario.

It is further the opinion of this House that, in order to nurture, promote, create and develop a strong economy in the province of Ontario, it is vitally necessary that the natural resources of this province be used to their fullest extent within Ontario and the profit derived therefrom as far as possible remain in the hands of the people of Ontario for the advancement of their well-being and prosperity.

8. *Mr. Stokes*—Resolution—That, in the opinion of this House, the Government should forthwith announce its intention to participate at the earliest possible date in the universal medical care insurance program enacted by the federal Parliament, so that the full benefits of that program may be available to all residents of Ontario without delay.
11. *Mr. Renwick*—Resolution—(a) That the principle of “a home for a home” or equivalent re-instatement should apply in all cases where a person’s home is expropriated for public purposes; (b) that such person thereby be entitled to receive in compensation a number of dollars which would enable him to relocate in substantially equivalent accommodation, as an owner, without additional financial burden.

22. *Mr. Lewis*—Resolution—That this House: 1. Urge the federal government vigorously to condemn the refusal of the United States to halt the bombing in Vietnam, thereby destroying prospects for a negotiated peace; 2. deplore the extent of Canadian complicity in that barbaric war, both by way of actual contributions to armaments and by way of a misguided foreign policy; 3. set aside a given period during each session for debate of important international issues, so that the collective legislative view can be impressed upon the government at Ottawa, and upon the outside world.
23. *Mr. Brown*—Resolution—That, in the opinion of this House, (a) all children coming before Juvenile and Family Courts for the first time should be placed on probation to non-institutional community services such as Big Brothers, Ottawa Youth Bureau, etc.; and (b) the Department of Reform Institutions should subsidize such programmes at the rate of the average per diem cost of maintaining such a child in an Ontario Training School in the previous fiscal year.

35. *Mr. Nixon*—Resolution—That the possible conflict of interest, involving the Honourable Members for Beaches-Woodbine and Scarborough West in their positions as Directors of Brown Camps, be referred to the Committee on Privileges and Elections, and that the Committee be instructed to rule on this and on the rights and responsibilities of any Honourable Members of this House, doing business directly or indirectly with the government, under Rule 21 of this House and Section 9 of The Legislative Assembly Act.

7. *Mr. Sopha*—Resolution—That, in the opinion of this House, the Government of Ontario has neglected the proper development of the northern part of the Province of Ontario and the policy or lack of same pursued by the Government of Ontario has failed to promote the economic well-being and the prosperity of all of the people of Ontario and, particularly, the inhabitants of the northern part of the province, in that the government has failed in the following particulars: (a) to require that ores mined in Ontario be smelted and refined in Ontario; (b) to promote the utilization of the ores mined in Ontario in the manufacture of finished products in Ontario; (c) to take steps to attract and establish secondary industry in the northern part of the province; (d) to adopt and promote measures to increase the number of people who live in the northern part of the province; (e) to promote the ownership of a significant portion of the equity in natural resources industries by Canadians; (f) to create ways and means of training adequate numbers of people in the engineering and technical arts to engage in the development of our natural resources industries; (g) to recognize that the real wealth of Ontario is to be found in the natural resources of Northern Ontario.

It is further the opinion of this House that, in order to nurture, promote, create and develop a strong economy in the province of Ontario, it is vitally necessary that the natural resources of this province be used to their fullest extent within Ontario and the profit derived therefrom as far as possible remain in the hands of the people of Ontario for the advancement of their well-being and prosperity.

PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That, in the opinion of this House, until such time as a minimum income is guaranteed to every citizen of Ontario, this government should forthwith introduce a comprehensive scheme of disability payments to guarantee an income to those citizens incapacitated by ill health and who qualify for neither unemployment insurance nor disability payments under The Workmen's Compensation Act.
7. *Mr. Sopha*—Resolution—That, in the opinion of this House, the Government of Ontario has neglected the proper development of the northern part of the Province of Ontario and the policy or lack of same pursued by the Government of Ontario has failed to promote the economic well-being and the prosperity of all of the people of Ontario and, particularly, the inhabitants of the northern part of the province, in that the government has failed in the following particulars: (a) to require that ores mined in Ontario be smelted and refined in Ontario; (b) to promote the utilization of the ores mined in Ontario in the manufacture of finished products in Ontario; (c) to take steps to attract and establish secondary industry in the northern part of the province; (d) to adopt and promote measures to increase the number of people who live in the northern part of the province; (e) to promote the ownership of a significant portion of the equity in natural resources industries by Canadians; (f) to create ways and means of training adequate numbers of people in the engineering and technical arts to engage in the development of our natural resources industries; (g) to recognize that the real wealth of Ontario is to be found in the natural resources of Northern Ontario.

It is further the opinion of this House that, in order to nurture, promote, create and develop a strong economy in the province of Ontario, it is vitally necessary that the natural resources of this province be used to their fullest extent within Ontario and the profit derived therefrom as far as possible remain in the hands of the people of Ontario for the advancement of their well-being and prosperity.

11. *Mr. Renwick*—Resolution—(a) That the principle of “a home for a home” or equivalent re-instatement should apply in all cases where a person’s home is expropriated for public purposes; (b) that such person thereby be entitled to receive in compensation a number of dollars which would enable him to relocate in substantially equivalent accommodation, as an owner, without additional financial burden.

Urge the federal government vigorously to condemn the refusal of the United States to halt the bombing in Vietnam, thereby destroying prospects for a negotiated peace; 2. deplore the extent of Canadian complicity in that barbaric war, both by way of actual contributions to armaments and by way of a misguided foreign policy; 3. set aside a given period during each session for debate of important international issues, so that the collective legislative view can be impressed upon the government at Ottawa, and upon the outside world.
23. *Mr. Brown*—Resolution—That, in the opinion of this House, (a) all children coming before Juvenile and Family Courts for the first time should be placed on probation to non-institutional community services such as Big Brothers, Ottawa Youth Bureau, etc.; and (b) the Department of Reform Institutions should subsidize such programmes at the rate of the average per diem cost of maintaining such a child in an Ontario Training School in the previous fiscal year.

PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That, in the opinion of this House, until such time as a minimum income is guaranteed to every citizen of Ontario, this government should forthwith introduce a comprehensive scheme of disability payments to guarantee an income to those citizens incapacitated by ill health and who qualify for neither unemployment insurance nor disability payments under The Workmen's Compensation Act.
7. *Mr. Sopha*—Resolution—That, in the opinion of this House, the Government of Ontario has neglected the proper development of the northern part of the Province of Ontario and the policy or lack of same pursued by the Government of Ontario has failed to promote the economic well-being and the prosperity of all of the people of Ontario and, particularly, the inhabitants of the northern part of the province, in that the government has failed in the following particulars: (a) to require that ores mined in Ontario be smelted and refined in Ontario; (b) to promote the utilization of the ores mined in Ontario in the manufacture of finished products in Ontario; (c) to take steps to attract and establish secondary industry in the northern part of the province; (d) to adopt and promote measures to increase the number of people who live in the northern part of the province; (e) to promote the ownership of a significant portion of the equity in natural resources industries by Canadians; (f) to create ways and means of training adequate numbers of people in the engineering and technical arts to engage in the development of our natural resources industries; (g) to recognize that the real wealth of Ontario is to be found in the natural resources of Northern Ontario.

It is further the opinion of this House that, in order to nurture, promote, create and develop a strong economy in the province of Ontario, it is vitally necessary that the natural resources of this province be used to their fullest extent within Ontario and the profit derived therefrom as far as possible remain in the hands of the people of Ontario for the advancement of their well-being and prosperity.

11. *Mr. Renwick*—Resolution—(a) That the principle of “a home for a home” or equivalent re-instatement should apply in all cases where a person’s home is expropriated for public purposes; (b) that such person thereby be entitled to receive in compensation a number of dollars which would enable him to relocate in substantially equivalent accommodation, as an owner, without additional financial burden.

22. *Mr. Lewis*—Resolution—That this House: 1. Urge the federal government vigorously to condemn the refusal of the United States to halt the bombing in Vietnam, thereby destroying prospects for a negotiated peace; 2. deplore the extent of Canadian complicity in that barbaric war, both by way of actual contributions to armaments and by way of a misguided foreign policy; 3. set aside a given period during each session for debate of important international issues, so that the collective legislative view can be impressed upon the government at Ottawa, and upon the outside world.
23. *Mr. Brown*—Resolution—That, in the opinion of this House, (a) all children coming before Juvenile and Family Courts for the first time should be placed on probation to non-institutional community services such as Big Brothers, Ottawa Youth Bureau, etc.; and (b) the Department of Reform Institutions should subsidize such programmes at the rate of the average per diem cost of maintaining such a child in an Ontario Training School in the previous fiscal year.

GOVERNMENT MOTIONS

1. *Mr. Robarts*—Resolution—That henceforth every member of this House may, as a matter of right, address the House in either of the two official languages of Canada.

PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That, in the opinion of this House, until such time as a minimum income is guaranteed to every citizen of Ontario, this government should forthwith introduce a comprehensive scheme of disability payments to guarantee an income to those citizens incapacitated by ill health and who qualify for neither unemployment insurance nor disability payments under The Workmen's Compensation Act.
7. *Mr. Sopha*—Resolution—That, in the opinion of this House, the Government of Ontario has neglected the proper development of the northern part of the Province of Ontario and the policy or lack of same pursued by the Government of Ontario has failed to promote the economic well-being and the prosperity of all of the people of Ontario and, particularly, the inhabitants of the northern part of the province, in that the government has failed in the following particulars: (a) to require that ores mined in Ontario be smelted and refined in Ontario; (b) to promote the utilization of the ores mined in Ontario in the manufacture of finished products in Ontario; (c) to take steps to attract and establish secondary industry in the northern part of the province; (d) to adopt and promote measures to increase the number of people who live in the northern part of the province; (e) to promote the ownership of a significant portion of the equity in natural resources industries by Canadians; (f) to create ways and means of training adequate numbers of people in the engineering and technical arts to engage in the development of our natural resources industries; (g) to recognize that the real wealth of Ontario is to be found in the natural resources of Northern Ontario.

It is further the opinion of this House that, in order to nurture, promote, create and develop a strong economy in the province of Ontario, it is vitally necessary that the natural resources of this province be used to their fullest extent within Ontario and the profit derived therefrom as far as possible remain in the hands of the people of Ontario for the advancement of their well-being and prosperity.

8. *Mr. Stokes*—Resolution—That, in the opinion of this House, the Government should forthwith announce its intention to participate at the earliest possible date in the universal medical care insurance program enacted by the federal Parliament, so that the full benefits of that program may be available to all residents of Ontario without delay.

11. *Mr. Renwick*—Resolution—(a) That the principle of “a home for a home” or equivalent re-instatement should apply in all cases where a person’s home is expropriated for public purposes; (b) that such person thereby be entitled to receive in compensation a number of dollars which would enable him to relocate in substantially equivalent accommodation, as an owner, without additional financial burden.
12. *Mr. Makarchuk*—Resolution—That this Government should take immediate measures to clean up the pollution in the Grand River in order to facilitate the use of the river for recreational purposes.

22. *Mr. Lewis*—Resolution—That this House: 1. Urge the federal government vigorously to condemn the refusal of the United States to halt the bombing in Vietnam, thereby destroying prospects for a negotiated peace; 2. deplore the extent of Canadian complicity in that barbaric war, both by way of actual contributions to armaments and by way of a misguided foreign policy; 3. set aside a given period during each session for debate of important international issues, so that the collective legislative view can be impressed upon the government at Ottawa, and upon the outside world.
23. *Mr. Brown*—Resolution—That, in the opinion of this House, (a) all children coming before Juvenile and Family Courts for the first time should be placed on probation to non-institutional community services such as Big Brothers, Ottawa Youth Bureau, etc.; and (b) the Department of Reform Institutions should subsidize such programmes at the rate of the average per diem cost of maintaining such a child in an Ontario Training School in the previous fiscal year.
24. *Mr. Smith* (Nipissing)—Motion for a Return—The minutes of the meetings of the Ontario Northland Railway Commission from January 1st, 1966, to the present date.

35. *Mr. Nixon*—Resolution—That the possible conflict of interest, involving the Honourable Members for Beaches-Woodbine and Scarborough West in their positions as Directors of Brown Camps, be referred to the Committee on Privileges and Elections, and that the Committee be instructed to rule on this and on the rights and responsibilities of any Honourable Members of this House, doing business directly or indirectly with the government, under Rule 21 of this House and Section 9 of The Legislative Assembly Act.
